Developer Tools: vs code, Git, Postman

Framework and Library: Next.js, Express.js, Vite, Tailwind CSS, React.js, Redux, React Toastify, Axios

Platform: Windows

Experience

Avika Colonizer & Developers

Frontend Development Intern

December 2024 – January 2025

Jaipur, Rajasthan

- Worked on the design and development of client-facing web pages using Next.js and Tailwind CSS, ensuring mobile responsiveness and performance.
- Collaborated with the design team to translate UX wireframes into functional, interactive interfaces with a focus on user-centric design.
- Implemented pixel-perfect UI components, maintained consistency in brand identity, and improved overall user experience.
- Participated in UI/UX review sessions, contributing to enhanced accessibility and visual hierarchy of the site.
- Gained hands-on experience with component-based architecture, routing, and state management in a real-world production environment.

Experience

[NextGen Thinkers \(Blogging\)](#) | Tailwind CSS, ReactJS, NodeJS, MongoDB

[Source Code](#)

- Developed a fully functional blogging platform with responsive UI using ReactJS and Tailwind CSS, enabling seamless user experience across devices.
- Integrated secure backend using Node.js and MongoDB, implementing CRUD functionality, user authentication, and dynamic content rendering.

[Music Academy Website](#) | HTML, CSS, Tailwind CSS, ReactJS, NextJS, NodeJS, MongoDB

[Source Code](#)

- Built a fully responsive music academy platform using Next.js and Tailwind CSS, enabling smooth navigation and fast server-side rendering for improved SEO.
- Developed backend APIs with Node.js and MongoDB, implementing features like course listing, instructor profiles, and secure user registration with JWT authentication.

[Clothing E-Commerce Website](#) | HTML, CSS, Tailwind CSS, Vite, ReactJS, Redux

[Source Code](#)

- Designed and implemented a responsive, modern UI using Tailwind CSS and ReactJS, with features like product filtering, category browsing, and shopping flow.
- Integrated Redux for efficient global state management, ensuring smooth interactions such as cart updates and user session handling across the app.

[Grocery Web Design](#) | NextJS

[Source Code](#)

- Designed a modern, responsive homepage layout for a grocery e-commerce website using Next.js and Tailwind CSS.
- Focused on clean UI/UX, featuring promotional banners, product sections, category highlights, and optimized layout for both desktop and mobile views.
